

Provider demographics

As a plan participating in the MI Health Link Medicare-Medicaid program, we must provide our members with access to medical programs and services. We are required to reasonably accommodate members and ensure programs and services are as accessible (including physical and geographic access) to individuals with disabilities as they are to individuals without disabilities. Accordingly, we will inform members in the provider directory of a provider’s ability to accommodate special needs. Please visit our website at www.amerihealthcaritasvipcareplus.com and verify that your provider demographics are correct in our online provider directory.
