

Continuity of Care Provision

This program has been designed to provide dual eligibles with coordination of their care, including long term care needs.

- CMS wants providers to know that patients have a choice in what health plan they wish to join, and providers should not influence or try to tell them to leave a Medicare-Medicaid Plan (MMP) or Michigan Health Link.
- Given the vulnerability of this member population AmeriHealth Caritas VIP Care Plus plan is required to offer a 180-day transition period for all members.
- Members will be allowed to maintain their current course of treatment with providers who are outside of our network. The 180-day transition period begins at the member's effective date.

All of the member's providers are covered during this transition period:

- Primary Care Physicians
- Specialists
- Behavioral Health
- Long Term Services and Supports (LTSS)
- Pharmacy

AmeriHealth Caritas VIP Care Plus will make all efforts to contract with the providers who are currently not in our network, but are treating our members. However, if the provider elects not to contract with our network, AmeriHealth Caritas VIP Care Plus may offer providers single case agreements to continue an member's care after the 180-day transition period ends.
